### Strengths:

- The app is visually pleasing to users
- The information in the modules is organized in a clear and concise manner
- The navigation bar has labels that are self-explanatory to a first-time user

### Issues / Defects:

Description of Issue	Severity (Low/Med/High)	Evidence / Example	Suggested Fix
Videos did not load on the dashboard	Low	The team member navigated to the video section on the dashboard and an error message was displayed	Review the code and maybe consult outside resources for

			assistance
Navigating to the module quizzes from the dashboard can be improved	Low	I observed how to navigate to the quizzes in the app's current state	Devise a way to include a more direct manner of navigation
