Review Type (e.g., code, usability, design, other): usability

Scope:
Artifact Reviewed:
Teams page, students page, status page.

Review Objectives:
Ensure that all pages reviews are easy and intuitive to use.

Methodology:

Approach Taken (e.g., execute, inspect, observe): Observe as the tester attempts to perform all the various CRUD operations on the pages listed above.

Evaluation Criteria (e.g., expected behavior, best practices, heuristic evaluation): Was the tester able to easily understand the app? Did the app work as the tester expected?

Coverage / Limitations (e.g., test login only, ignore database integration): We are only testing the teams page, students page, and status page.

Findings

Strengths:

- UI looks great and consistent
- Very intuitive, I didn't need anything explained during my walk through

Issues / Defects:

Description of Issue	Severity (Low/Med/High)	Evidence / Example	Suggested Fix
(Students page) Email link doesn't work. Clicking on the	Low	Clicked on the email link for the 1st student and it opened a blank	Should be an easy fix!

email link doesn't actually open the user's email.		chrome tab	
(Students page) Selecting a team in the dropdown doesn't save.	Medium	Tried to assign a team from the dropdown menu, but after selection it still said unassigned.	Team needs to save, should also be an easy fix.
(Status Page) The full view for all sprints is a little bit overwhelming visually.	Low	Hard to view line by line horizontally	Could be helpful to have alternating lines as a light gray so its easier to follow horizontally.
